

Mixing Series Advisory

For a consistent fit and finish we highly recommend that you use the same Series on all Krowne equipment in your bar. Mixing series results in inconsistencies highlighted in below 3D example.

All underbar units that are not compatible with speedrails will be made 5" deeper to match equipment with speedrails.

	 ROYAL SERIES		 SILVER SERIES	
Series	Royal 1800	Royal 2100	Silver 1800	Silver 2100
Prefix	KR18-	KR21-	18-	21-
